

2007 Program Archive

Date	Location	Topic	Speaker (s)	Notes
20-Jun-07	Deloitte & Touche USA LLP	Program Planning & Risk Analysis – Case Example	Matt Murch, Deloitte Financial Advisory Services, LLP Mark Evans, Deloitte Financial Advisory Services, LLP John Cullian, Deloitte Financial Advisory Services, LLP	Matt Murch and his colleagues, Mark Evans and John Cullian, will discuss strategies for conducting schedule risk analyses through an actual case example for the construction of a liquefied natural gas terminal. We will see the processes and assumptions used to analyze and develop recommendations for feasibility of this construction project.
13-Sep-07	URS Corporation Headquarters	AAACEI's New and Evolving Technical and Certification Initiatives	Dr. Randy R. Rapp, AAACEI Subject Matter Expert	
11-Oct-07	Phil Smidt's Restaurant	Expectations of the Process Plant Cost Estimate Using Kbase™ (Why, Who, What, When, How)	Christopher L. Kinney, Senior Estimator with CB&I	This month's presentation will provide an overview of how an experienced practitioner maximizes the power of an Icarus Kbase Estimating package in the Process Industry.
14-Nov-07	Seyfarth Shaw LLP	Computer Based Project Management Systems – Risks and Rewards	P. Brian See, Seyfarth Shaw, LLP and Jonathan D. Bobb, McGovern & Greene, LLP	Computers and electronic documentation have been essential parts of construction process for quite some time now. Larger projects increasingly utilize project collaborative Web sites. These high tech solutions raise a number of practical and legal issues. Presenters will address several of these issues.
5-Dec-07	Emmett's Ale House	Establishing Program Controls in the \$6.3B Fast Track Tollway Congestion-Relief Program	Greg Stukel, Illinois Tollway and Robert B. Brown, PE, PMA Consultants	This presentation describes how the legacy Program Controls systems were transformed and new procedures were implemented to provide greater accountability and substantial business efficiencies.
